Mr. Montaigue's companion volume to the Dim Mak
encyclopedia is a welcome addition to his outstanding
series of Dim Mak titles. This book covers point strikes to
the extraordinary meridians (covered in TCM theory), as
well as additional information concerning the medical
effects of point strikes to the human body.

This book is the perfect encyclopedia for dim mak. It shows each point very clearly. How to find it and how best to strike it. I like the fact that it also includes an explanation of how to heal damage from each point and also a basic explanation of how each point may be used to heal health conditions. All without much padding or useless information.
