[About Medical Weight Loss-Center for medical weight loss](#)

Medical weight loss is not surgery or diet pills. It is weight management based on medical scientific evidence that targets the root causes of obesity and weight gain. Trained doctors or medical providers provide the treatment and guidance necessary to help you achieve weight loss and maintain it for life.

MWLC - Medical Weight Loss Clinic | Start losing weight now

Your actual weight loss will be determined by many factors, including, but not limited to: your medical circumstances, the plan you choose, adherence to the meal plan and use of nutritional supplements. Your goal and program duration information will be given to you in writing at the time of enrollment.

9. Prescription weight loss pills. Certain weight loss pills are only available through a doctor's prescription.

Although there are various pills on the market, most weight loss medications work by making it harder to absorb dietary fat or by suppressing the appetite. Two

common weight loss pills are Belviq and Qsymia.
