SCR Firing / Triggering :: Radio-Electronics.Com
Triggering or firing is one of the key issues associated with SCRs or thyristors. Accordingly SCR triggering methods need to be considered when designing a circuit using one of these components. The performance of the circuit and the very way it operates will be largely dependent upon the SCR triggering or firing method chosen.

SCR gate controller circuit using arduino

My project is based on designing a SCR gate controller circuit for a FW H bridge rectifier. So i decided to use arduino Duemilanove to help my cause. I came across a journal where they precisely explained the generation method but they used Atmega-32. So i followed the steps. The following is the method and I have attached the zero cross detection circuit along with its simulated o/p.
