Rated 5 out of 5 by JeanG from 1200 conversion - get it done! I had this kit installed with V&H shortshots and Roland Sands air cleaner, tuned for high flat torque curve for back road riding and acceleration. It's transformed the bike (883 Iron). Top speed is same as I didn't change the gearing but acceleration is ferocious in any gear at any revs above 2000. Immense fun to ride, thoroughly recommend.

That 08 883 comes with the "W" cams stock they are the same cams that are in a 1200 so he would be good to go in the cam department. You'll need to consider a different ignition for the bike since the stock 883 unit will have to much advance in it for the higher compression 1200. Look into a Daytona Twin-Tec TC88a, unit they are fully programmable and have proven dependable.
